

## Oxygen Concentrator

Oxygen Concentrator carries forward our commitment of providing reliable, cost-effective and quality products.

An Oxygen Concentrator is a machine that generates medical oxygen. It runs on electricity and the only maintenance required is the regular cleaning of filters.

An Oxygen Concentrator has been designed to provide a combination of enhanced features, reliability of a proven technology and unsurpassed quality.

An Oxygen Concentrator is the largest selling concentrator in India. We promise you complete satisfaction and convenience.

### Product Features

- Quiet Operation - Sound Level less than 47 dBA
- Lightweight - 22.7 Kgs - Easy to move
- Slender & Sleek design with integrated handle
- Easy access to filters & battery
- Superior grade of molecular sieve
- Patented maintenance free rotary poppet valve
- Exclusive moisture reducing wick assembly
- Reinforced base with recessed casters to guard against breakage
- Spring mounted high efficiency Thomas compressor
- Patented RPSA (Rapid Pressure Swing Absorption)
- Simple design for ease of use & maintenance

### Product Specification

<b>Size (L x W x H) :</b>	394mm x 396mm x 706mm
<b>Weight :</b>	22.7 Kgs
<b>Sound Level :</b>	Less than 47 dBA
<b>Power Consumption :</b>	400 Watts average
<b>Safety Alarms :</b>	Power Failure- Process Failure- High / Low Pressure- Low Oxygen Purity (OMS model only)
<b>Oxygen Purity :</b>	0-2 LPM – 94% / 2-4 LPM – 93% / 5 LPM – 90%
<b>Outlet Pressure :</b>	7 psi
<b>Oxygen Output :</b>	Variable – 0 to 5 LPM (1/2 Liter increment)
<b>Filters :</b>	Cabinet, Compressor Intake and Bacteria
<b>Warranty:</b>	One Year
